→ Installation.

Java se runtime environment & download

What Java is & How it works

→ Java is a biggest modine programing language.

package com -caveof programing android mopsquirrel;

⊕ input Java, util shit;

public class Location. detailadapter extend bark dapter {

private context contact;

private hits < location Detail > locd;

public location adaptel (contact, context, hits location details)
loc {

this. context = context;

this locd = locd;

}
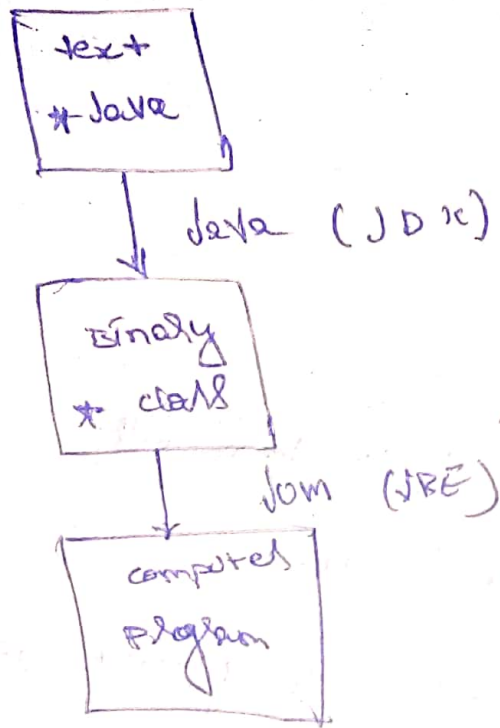

public int get court() {
return locd sia();
}

public object get item (int portion) {
return locd-get (position);
}

public long get item (position) {
return locd-get (position). get id();
```
